🪪 Work Permit: Opportunity Card

👤 PROFILE

Experienced Frontend Developer with 8+ years of expertise in building web applications using React, Vue.js, and TypeScript. Proven track record in optimizing complex systems, implementing user interfaces, and leading cross-functional teams. Seeking new challenges in the German market.

💼 PROFESSIONAL EXPERIENCE

02/2025 - 07/2025

German Language Learner (B1)

Ludwig-Maximilians-Universität München, Germany

- Completed "German for study and work"- A2+ level

Deutsch Akademie München, Germany

- Completed "Intensivkurs"- A1、A2、B1 level

08/2022 - 10/2024

Senior Frontend Developer

Toyou Feiji Electronics, Changsha, China

- Led technical architecture for complete overhaul of storage management platform using Vue.js and TypeScript, implementing modern frontend-backend separation
- Developed Redfish-compliant RESTful APIs, refactoring over 100 interfaces to optimize storage device management for clusters
- Designed and implemented AI-powered chat tool using Vue.js integrated with Ragflow for enhanced after-sales support
- Streamlined development workflow by migrating to Vite (achieving 60%+ faster build times) and implementing ESLint standards, resolving 300+ code issues. Integrated Tailwind CSS.
- Mentored 3 junior developers and established comprehensive code review processes

04/2018 - 04/2022

Junior Frontend Developer

Blitz Interactive Entertainment, Shenzhen, China

- Built proprietary instant messaging system for enterprise portal and mobile application, featuring business inquiries and feedback
- Implemented chat interface with rich media support and developed Spring Boot backend for real-time communication. Created

analytics dashboard for session data visualization

- Containerized and deployed complete IM system using Docker for scalable production environment
- Enhanced Activity Manager performance and developed reusable component library with 20+ components

09/2016 - 04/2018   **Junior Frontend Developer**
Jinji Network Technology, Shanghai, China

- Developed React Native application with ijkplayer integration for video playback across Android and iOS platforms
- Built web-based admin frontend using React.js and Ant Design, implementing file upload capabilities and data visualization
- Redesigned corporate website with improved UI/UX architecture

🎓 EDUCATION

09/2012 - 07/2016   **Bachelor of Engineering in Communication Engineering**
University of Electronic Science and Technology of China, Chengdu, China

💻 TECHNICAL SKILLS

Frontend	HTML, CSS, React, Vue.js, Next.js, Tailwind CSS, React Native
Backend	Node.js, RESTful APIs, Spring Boot, MySQL
Programming	JavaScript, TypeScript, Python, Java
Development Tools	Vite, Webpack, Git, ESLint, Docker
AI Tools	Generative AI, Prompt Engineering, Modular Prompt Design
Core Competencies	Performance Optimization, Responsive Design, Documentation

🌐 LANGUAGES

English	Fluent (B2 CEFR)
German	Intermediate (B1 CEFR) - Currently enrolled in intensive course
Chinese	Native

💡 ADDITIONAL INFORMATION

Open Source	Active open-source contributor with personal GitHub projects (670+ stars, 300+ followers)
Interests	Travel, Badminton, Photography
